Formulae

Juniper Berry, Cranberry, Uva Ursa, Corn Silk, Parsley Root

Therapeutic Action

This formula is an excellent aid for stopping the pains and discomfort of bladder infections. The properties in the Juniper and Cranberry neutralize the acid that causes the feeling of burning during urination. When used at the first sign of discomfort it can completely prevent the painful burning during urination.

It is also healing when used in conjunction with the Herbal Antibiotic Formula.

Cranberries

Parsley Root

Dosage

For painful urination associated with a Bladder Infection, use one ounce in a quart (16oz) of distilled water. Drink all at once and follow every 15 minutes with an additional 8 oz of distilled water for one hour. At the end of the hour, when you void, the painful symptoms should be gone. If you are still experiencing a burning sensation upon urination, you may repeat the procedure. While you are healing, continue to use 2-4 droppersful every 3 to 5 hours while taking the Herbal Antibiotic.
