Therapeutic Action

Over the years we have used a combination of herbs that has the ability of aiding many people who have found nothing else to help them in advanced diseases caused by bad blood. We have had hundreds of people express gratitude for the remarkable results they have received from following a vegan food program while using the herbal aids.

This herbal blood rebuilder is made up of the cleanser herbs that give astringency and other herbs that aid in removing cholesterol, kill infection and build elasticity in the veins and strengthen the vein and artery walls.

This formula creates, not only a generalized blood purifier, but also includes a group of herbs that aid in building strength and cleaning out the entire body, by breaking loose toxic deposits and flushing them out, and also acting as a food for the organs.
