## Formulae

Echinacea angustifolia dried root, Echinacea angustifolia whole herb, Echinacea purpurea dried root, Echinacea purpurea seed, Fresh Garlic bulb juice and Cayenne. **Also Available without Cayenne & Garlic**

## Therapeutic Action

[Echinacea Tonic](#) stops colds dead in their tracks and also protects those who are well from getting sick. Echinacea's cold and flu fighting and healing ability alone has made it the #1 immune herb and the #1 herb sold in America. This is simply because IT WORKS! But colds and flu are only two of the hundreds of uses for Echinacea. I have used it effectively to combat all types of infection and diseases. Echinacea Tonic must not be sold short. It should be used for **EVERY** disease and illness. You have nothing to lose and everything to gain.

Simply put, Echinacea works in two main ways. First, it builds up your immune system by stimulating your body to build more immune cells and immune chemicals. Secondly, it also stimulates these immune cells into action and heightened activity levels. These actions will help you combat any infection or disease more effectively and also protect you from future invasion and illness.

Echinacea is one of the strongest immune stimulators and enhancers known. It can double and triple the amount of T-cells and Macrophages in your bloodstream and increase the number of Granulocytes. It also stimulates the phagocytosis, the ability to kill and eat the bad guys, in all of these white blood cells.

There are literally hundreds of other known and researched healing and protecting abilities of Echinacea besides colds, flu, sore throats and upper respiratory infections. A partial list includes inhibiting tumor growth, killing strep and staph bacteria, halting urinary tract infections, healing infected wounds, relieving hives and allergic reactions, stopping allergies, neutralizing toxic and poisonous insect and animal bites and stings, etc.

Echinacea Tonic also contains Garlic, one of the strongest medicinal plants on earth. It is a supreme infection fighter capable of killing all bacteria, virus and fungus on contact. Garlic is also a very powerful anti-viral agent. Garlic destroys on contact the viral infections of Measles, Mumps, Mononucleosis, Chicken pox, Herpes simplex, Herpes zoster, Viral Hepatitis, Scarlet fever, Rabies and others. So while some say that the reason you don't catch colds when you eat garlic is because no one will come near you, remember that garlic is also a powerful anti-viral agent.

Habanero pepper, which is unique to my formula, increases your blood and lymph circulation which makes this formula 10 times more effective than Echinacea by itself.

# Dosage

The dosage is dependent on the situation.

**For general protection and immune stimulation, especially when you are not ill:**

Use 2 droppersful 5 times a day until you have consumed 2 oz. This will take about 7 days.

**When you're feeling out of sorts or a bit off, but it's nothing you can really put your finger on:**

Use 4 droppersful 5 times a day until you have consumed 2 oz. This will take about 3 or 4 days.

**Onset of fever, chills or any of the symptoms of cold or flu:**

Use 4 droppersful 8 times daily until you have consumed 2 oz. This will take 2 days. You may continue this dosage for a week and then reduce dosage.

**High fever, Sore Throat, Yellow mucous, Coughing, Sneezing or any serious illness:**

Use 1 oz Echinacea Tonic immediately. It can be diluted in juice or drink, if necessary. Then consume an additional ounce throughout the rest of the day. The following days consume at least 1, if not 2 oz. of Echinacea Tonic each day until you feel the infection or illness break.
