Formulae

White Oak Bark, Goldenseal root, Myrrh gum, Comfrey, Garlic, Cayenne, Black Walnut hulls, Echinacea root mix, Tea Tree Oil

Tea Tree Oil

Therapeutic Action

This is an excellent cut and scratch disinfectant. It has also been used effectively to heal sores on the mouth and lips when used as a mouth rinse.

Dosage

Mouth Wash: Mix 2-4 squirts with a few ounces of water. Swish around mouth and gums for 20-30 seconds before spitting.

Generally: For external use but can be used in the oral cavity. Soak a cotton swab in the tincture and scrub into the infected area; let air dry. It has a burning sensation. OK, it burns A LOT!!! If the wound is tender, just flush it with multiple droppers full of the formula, but no need to scrub it in.

Myrrh gum

Comfrey
