

INFECTION FORMULA

Natural All Herb Infection Fighter!

- KILLS Infections
- CLEARS Toxins from the Lymph System
- CONTAINS Plantain a powerful germicide as well as an Alterative
- 100% organic, herbal, sugar-free and chemical-free

BOTANICAL INGREDIENTS:

Plantain, Black Walnut, Goldenseal Root, Bugle Weed, Marshmallow Root and Lobelia

PLANTAIN

As an Alterative Herb Plantain gradually alters and corrects impure conditions of the blood without increasing the elimination through the colon. It slowly but surely cleans and purifies the bloodstream while at the same time toning up the organs which are not properly eliminating. Because Plantain is a germicide as well as an Alterative (among other things!) it is a very important herb.

- **BLACKWALNUT**

Black Walnut is a powerful herb; the green husk is the most potent part of all. The herb works to clear a variety of ailments. The organic iodine found in Black Walnut is much more antiseptic and healing than the usual poisonous iodine so commonly used for infections, cuts, etc.

Externally, Black Walnut is nearly a miracle worker in cases of scrofula, eczema, impetigo, acne, dandruff, boils, itch, shingles, and ringworm. Use Black Walnut whenever a skin disorder appears! The tincture is an excellent first-aid remedy for wounds.

GOLDENSEAL ROOT

Despite the warnings about overuse, Golden Seal is considered to be one of the best general medicinal aids in the entire herbal kingdom. Long considered one of the best substitutes for quinine, a most excellent remedy for colds and flu. When taken as tea Golden Seal has a potent action on the mucous membranes, clearing up profuse or morbid secretions. It also effectively cleanses the liver.

BUGLE WEED

Said to be one of the most beneficial plants in the herbal kingdom because it is extremely effective without side effects. Early herbal medicine attributed a wide range of activity to Bugleweed. Early American Doctors acclaimed it as one of the most valuable styptics (checks excessive bleeding) that we possess. Effective on acute pulmonary complaints, as it lessened irritation, calmed the nerves, and slowed and strengthened the heart.

MARSHMALLOW ROOT

Marshmallow is very soothing and healing to the inflamed respiratory, alimentary, intestinal, and genitourinary areas. Marshmallow is known to be high in lime and calcium, and especially high in oxygen and pectin. For those concerned that their reduction of dairy products will deprive them of needed calcium, Marshmallow is among the many herbs which will richly fill that need. The pectin in Marshmallow will also draw out heavy metals, mercury, lead and even radioactive materials.

LOBELIA

Dr. Christopher considered that Lobelia would help correct the entire bodily system, as it is easily diffused and utilized. Its greatest aspect is that it removes obstructions and congestion within the body, especially the blood vessels. Over his years of practice, Dr. Christopher administered Lobelia many times, and there were numerous miraculous healings. Time after time, Lobelia helped all, from the very young to the very old, with only positive results.

HOW IT WORKS

This wonderful formula kills infection, clears toxins from the lymph system, and is a natural infection fighter. The Infection formula can be made up in tea form, or as tincture, syrup, or ointment, as can most of our formulas.

WHY YOU NEED IT

The Infection Salve & Tincture are an important addition to any First Aid Kit. As a herbal aid for slow healing wounds the Infection Salve brings healing in day instead of weeks and months. Bee Stings, Ant Bites and the like are quickly cleared with an application of the salve. The Tincture can be used as an aid to clear infection from anywhere in the body and of course the common cold; or continued use over many months as an Alterative to cleans and purify the bloodstream while toning the organs.

DOSAGE: ½ to 1 tsp. in distilled water 3 to 5 times a day. For Serious Infections the formula can be taken as often as every two hours, alternating with the Herbal Antibiotic Formula.
