## Formulae

Lobelia herb and seed in organic raw apple cider vinegar and pure grain alcohol

## Therapeutic Action

This herb is politically incorrect (meaning effective). You'll see less and less available for sale. Lobelia is one of the most powerful and versatile herbs I know. I have learned to rely on this herb more than any other. I always say, "When in doubt, try Lobelia." Lobelia has two main uses, first as an antispasmodic and second as a bronchial dilator and expectorant. As an antispasmodic it is second to none and will relax the entire body and organs. This is why it is one of the main ingredients in the Nerve Formula. It is also the greatest herb for problems with the lungs. IT IS A STRONG BRONCHIAL DILATOR. It will get you breathing easily again. It also will help you to expectorate material out of the lungs. I have seen it work with a hundred different disorders. When it doubt, try it!
