Formulae

Fresh Garlic, Fresh Onion, Fresh & Dried Cayenne,
Fresh Ginger Root, Fresh Horseradish, Parsley leaf, Raw
Apple Cider Vinegar.

Therapeutic Action

Garlic is a broad spectrum antibiotic, destroying both gram-positive and gram negative bacteria. Unlike chemical antibiotics that kill off the millions of friendly bacteria that your body needs, Garlic only kills the bad guys and even promotes and increases your healthy bacteria. It is also a very potent, anti-viral which really makes it a specific for colds, influenza and upper respiratory infections. Garlic is also a powerful antifungal and literally destroys any antigen, pathogen and any harmful or disease causing micro-organism that can hurt you. Onion is Garlic's next of kin and has a similar but milder action. Together they are a killing duo. Horseradish is a potent herb for the sinus and lungs. It opens up the sinus passages and increases the circulation there, where, most doctors agree, the common cold and influenza often starts. Cayenne and Ginger are line a nuclear blast to your body's circulation. This powerful tag team will unblock anything, anywhere!

So just imagine, you have the two strongest herbs to kill EVERY germ known and the three most powerful herbs to blast them around your entire body. IT doesn't get any better. That's the bottom line.

Dosage

1-4 squirts in a shot glass. First timers may want to mix this dosage half and half with water. Whether you dilute it or take it straight. gargle with it for a minute and then swallow
